

A car door being repaired in the STL shop.

## CHRIST-HONORING

Dear Righteous Rides,

We recently passed through the Truesdale location outside of St. Louis. I had contacted you about getting a door looked at but had failed to confirm with Keith that I would be coming yesterday. The staff and volunteers did an incredible job getting us in, fixing our door, and letting us borrow a vehicle to run and grab some lunch. It enabled us to get our van fixed while breaking up a 6½ hour drive. We are so thankful for the use of the van but also for the Christ-honoring manner in which everyone in the shop and offices looked after us, prayed for us, and got us back on our way.

Thank you.

In Christ's Service,

The P family

2020 Interns

## INTERN MECHANICS

Written by Jordan Stafford, 2020 summer intern

During this summer's internship program, mechanic interns Noah, Wil, and Daniel were able to clean over 30 vans, assisted with the inspection and servicing of 25 vans and the re-sale of several vehicles for a profit that went back into the ministry.

"It's a whole package kind of an internship," said mechanic intern Daniel. "As you're working on cars it's easy to draw [spiritual] analogies... and [that's] the heart of the volunteers here. They are always teaching spiritual lessons as well as work-based ones." Our interns and volunteers are a real shot-in-the arm to the ministry of Righteous Rides.

On September 11 we had more vans on the road than any single day in our history, driving over 10K miles in one day.
