

# MORE THAN ALL WE ASK OR IMAGINE!

The LAX Hub opened in April 2019 with one van. Last year, 31 missionaries requested LAX as their hub preference. YTD 2020, now with four vans, LAX has been first choice for 30 missionaries.

## GOD'S PROVISION

By: Dannie Smith

Meet Doug and Nancy Sorensen, coordinators of our newest hub, Los Angeles. Doug relates that he was first introduced to Righteous Rides by one of his employees, Scott, who with his wife had attended the Righteous Rides 10-year anniversary banquet in Saint Louis. Here the story has become legend in God's provision for Righteous Rides.

Scott and his wife arrived late, and the only table available was in the back of the room. Mark and Karen Reighard, one of the co-founders of Righteous Rides, were also seated at the table. As it turned out, the company that Scott and Doug work for produces software for the rental car industry. Mark shared with Scott that car rental software was a critical need for RR. Later, at work, Scott related the need to Doug, his supervisor, Doug in turn proposed to the president of the company to establish a subscription for the CARS+ software at an extremely affordable rate, which includes full technical support.

What a blessing CARS+ has been, accommodating the expanding needs of Righteous Rides! Our praise "to him who is able to do immeasurably more than all we ask or imagine."

## CARE VS. CAR

Doug Sorenson tells of a missionary family from a country hostile to the gospel. The husband had been arrested, and after his release, they came back early to the US. Arriving at the LAX Hub to pick up a van, they were tired and discouraged, but were greeted with goody bags, prayer, and reliable transportation. Four months later they returned the van, visibly re-energized and encouraged in their faith to return. In Doug's words, "the CARE is more important than the CAR."

For God so loved the world...

About 60 volunteers serve RR regularly. Where do you fit in?
