Praise

In the month of July we
served 151 missionary
families!

Prayer Request

That God will send one
missionary couple to
work at RR by the end
of the year.

RIGHTEOUS RIDES: FUN SIZED

Over the years we have had numerous missionaries suggest that while minivans are great, they would prefer to drive something smaller and possibly more economical on gas mileage. In response to their request, we now have several late model Toyota Camry fleet vehicles available out of our Missouri location.

So far this year we have received 265 vehicle requests and 46 of those were for the Toyota Camry. All other details about vehicle usage are exactly the same as the minivans. Same rate, same support, it's just a Toyota Camry and you can't fit seven people in it.

As one missionary put it, "My wife and I are returning for a brief furlough, and we would like a smaller vehicle. That would free up the larger vehicles for missionaries who need them." When a single missionary learned about the addition of the Toyota Camrys, he said, "I just learned about the Toyota Camry option which made me eager to apply since the van option is too big for me."

David and Debbie are currently cruising in their fun-sized Righteous Rides Camry and wanted us to report, "we are enjoying the good gas mileage"!
