

THE FILLING STATION

MAY 2026 ISSUE

THIS YEAR, with your help and God's blessing, we'll lease vehicles to more missionaries than ever before. To keep up with the growing demand, we are upgrading our IT systems, scheduling software, vehicle maintenance facilities – and more.

Attention to excellence and good stewardship have always been hallmarks of Righteous Rides. We strive to maximize the value and impact of every dollar, which is why we are continuing our summer internship program.

God has provided four talented, skilled – future leaders, from LeTourneau University. These interns will have real responsibility and will be assigned challenging and difficult tasks.

Our primary goal is to invest in them spiritually, and for each one to acquire a better understanding of gospel missions as they serve the Lord with us this summer.

JUSTIN

RUSSEL

RUTH

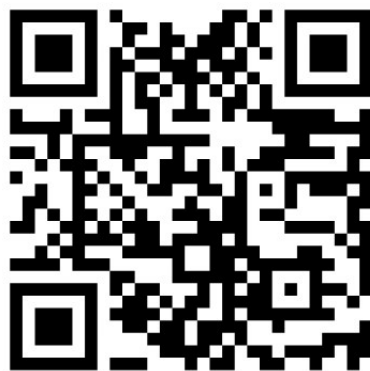

CALEB

If we were to hire consultants, contractors and employees to do the work these interns will accomplish, the cost would be substantial – and the work would be done with less heart.

If you'd like to know more about our intern program, please scan the QR code below or visit:

righteousrides.org/intern

This summer, would you pray for Ruth, Caleb, Justin and Russel? Your prayers will encourage them!

NEW PRAYER PARTNERS

PRAYER is the most impactful contribution you make to Righteous Rides and to the missionaries we serve. This year, would you partner with us in praying for God's protection as our missionaries travel hundreds of thousands of miles in Righteous Rides vehicles? If you'd like to become a prayer partner, please email:

Michael Lindberg

Michael.lindberg@righteousrides.org

Each month, you'll receive prayer requests, updates and answers to prayer. **If we can pray for you, please let us know how.**

2026 HUB SUMMIT

THE 2026 Hub Summit was a tremendous success! Nine out of fourteen Righteous Rides hub locations were represented. Old friends were reunited and new friendships were made. Our Director, Ron York (pictured with his wife, Dee) shared his vision for 2026 – and beyond.

James Gleaves, a former missionary to Latin America and current representative for Ethos 360 – a missions organization based in St. Louis, challenged us from the Word of God. It was an exciting time - and together, we praised God for His good hand of blessing on the ministry.

WITH over 150 vehicles, traveling hundreds of thousands of miles annually - maintenance needs are substantial.

Righteous Rides automotive repair and maintenance technicians are committed to making sure every vehicle is safe and well-maintained.

You might find a few of these **2025 STATISTICS** to be of interest.

BLESSED ASSURANCE UPDATE

EIGHT months ago, we launched 'Blessed Assurance' – our self-insure program. Following approval from the board, we hit the ground running – establishing a driver safety program, founding a licensed, comprehensive insurance company under the Righteous Rides umbrella and launching a major capital campaign to fund the effort – our largest campaign ever. **We prayed, you gave and God provided over \$356,000!** Thank you for partnering with us to provide affordable, hassle-free insurance protection to our missionaries. On their behalf, we say, **THANK YOU!**

2026 VOLUNTEER APPRECIATION DINNER

SOMEONE has said, "Volunteers don't get paid, not because they're worthless, but because they are priceless." Without faithful volunteers, Righteous Rides could not operate. Our volunteer dinner was a time to express gratitude for those who give of themselves to provide care and cars for our missionaries.

**WANT TO VOLUNTEER?
WE'LL PUT YOU TO WORK!**
